

ATP YAZILIM VE TEKNOLOJİ ANONİM ŞİRKETİ

ENVIRONMENTAL POLICY

1. Objective

The Environmental Policy (“**Policy**”) of ATP Yazılım ve Teknoloji A.Ş. (“**Company**” or “**ATP**”) outlines the principles regarding the effective implementation of its provisions across ATP’s all international operations.

2. Scope

This Policy covers all services provided by ATP and applies to all its employees and relevant third parties that contribute to the Company’s processes.

3. Responsibility

This document is reviewed on an annual basis or as needed and kept up to date through necessary updates.

4. Policy

ATP is a leading technology company that develops critical platforms, software, and services for diverse industries, starting with finance, hospitality, and energy. Through its brands – Tradesoft, Zenia, ATP Digital, and GreenX - ATP offers innovative technologies, aiming to create real value by enabling its corporate clients to gain competitive advantage and reduce costs in an environment of higher expectations. ATP strives to conduct its operations in accordance with international laws and national legislation while always aiming to build a safe work environment.

Drawing on the expertise and reputation gained since its establishment, ATP operates with the mission of protecting the environment and ensuring the sustainability of natural resources. Accordingly, ATP has crafted this Environmental Policy as part of its sustainability-focused activities to achieve a balance between economic growth and environmental factors. ATP officially discloses the following commitments for the implementation of this policy.

In all our efforts toward this goal, the ISO 14001 Environmental Management System Standard guides our environmental management activities.

The Environmental Policy lays out the following commitments, goals, requirements, and principles:

- We are committed to upholding our responsibility to abide by national and international environmental legislation.

- Aiming to contribute to sustainable development, we adopt it as a fundamental principle to comply with national and international emission targets, reduce energy consumption, improve energy efficiency, and minimize greenhouse gas emissions.
- Regarding waste management, we aim for effective waste disposal without harming the environment by focusing on reducing waste at source, reusing and recycling waste materials.
- Regarding health, safety and quality, we adhere to applicable legislation and standards related to the technology, materials and raw materials we use.
- In accordance with our Environmental Management System, we aim to minimize our environmental impact by regularly reviewing our policy.
- We strive to measure our environmental performance based on relevant metrics and continuously improve by reporting the results.
- We aim to provide regular training programs to raise environmental awareness among our employees and suppliers.
- We follow our strategy of transitioning to high-energy-efficient products to utilize resources more effectively and promote sustainable product designs.
- We commit to continuously monitor environmentally friendly management systems in planning and executing our operations and to disclose information transparently.

As required by this Policy, we continuously monitor our environmental performance and regularly disclose the relevant findings to all our stakeholders through Sustainability Reports. We continue to align our environmental priorities with the local and global trends affecting our industry, review and update our policy as needed, and share these updates with the concerned individuals and institutions.

This Policy applies to all ATP employees and suppliers, who are required comply with ATP's Environmental Management System and related policies, procedures, and controls.
